Look at the road, the old dusty road
What do you see?
Look at the sky, the bright blue sky
What do you see?

Chorus

Cause I see you, through the darkest night
I see you, you are the light

Look at my wrist and the ring around my neck
What do you see?
Look at my hands, God look at my hands
What do you see?

Chorus

Cause I see you, through the darkest night
I see you, you are the light
I see you, won't you hold my hand?
I see you, just tell me you can

I see you, through the darkest night
I see you, you are the light
I see you, won't you hold my hand?
I see you, just tell me you can
I see you, through the darkest night
I see you, you are the light
