

Love Some More

Life without love isn't life
Just like a fire without heat will surely die
And the world that we've made today can take a boy's dream and rip it away

I've been watching and learning on this thing we call earth
There's something that stayed constant since birth
There's so much hate and crime in the streets and in the homes if someone cries they get beat

PreChorus

So far we've sat back and watched
From soldiers overseas to lunch money getting tossed
It's time to take a stand and do what is right
Love until your heart hurts and for the rest of your life

Chorus

No more crying no more tears, no more fights and no more fears
If everybody loved like they should, we'd build a world no one thought we could
Everyone wonders why we're alive, it's how the dreamers survive
Do what is right, never ask for more
Love until your heart breaks, and then love some more
Love some more

Can you imagine that world?
Where everyone is happy like boys and girls
No one cheated or lied
It's at our fingertips just gotta try

[PreChorus]

[Chorus]

[Chorus]
